

## CONGRATULATIONS ON YOUR NEW PUPPY!

While new puppies are a great deal of fun, they require lots of love and care to help them develop into the perfect canine companions. Regular veterinary visits are necessary during the first 6 months of life to ensure your new pet stays healthy and happy. During these visits we will discuss common behavior problems as well as preventative health care. Please do not hesitate to ask us about any questions or concerns you have about your pet.

### Recommended Veterinary Care for Puppies:

- 8-9 weeks of age*— Complete Physical Exam
  - 1<sup>st</sup> Distemper Combination (DAP) Vaccination
  - Deworming
- 10 weeks of age*— Deworming
  - Behavior and Training Consultation
- 11-13 weeks of age*-- Follow Up Physical Exam
  - 2<sup>nd</sup> DAP Vaccination
  - Bordetella (Kennel Cough) Vaccination
  - Fecal Exams (total of 2)
  - Deworming
- 15-16 weeks of age*- Follow Up Physical Exam
  - Parvo Booster
  - Rabies Vaccination
  - Deworming
- 5 months of age*----- Deworming
- 6 months of age*----- Deworming
- Anytime*----- Microchipping

While each of these visits can be paid for separately at the time of the visit, many of our clients prefer to save time and money with our Puppy Package. **The Puppy Package includes all of the above recommended services at a discount of 20% off the regular price plus includes 2 free toenail trims and a free behavior and training consultation. (Please note that spay or neuter surgery is NOT included in the puppy package.)** The price for the Puppy Package is \$322.75 (This is a savings of over \$75.00.) If you are interested in the Puppy Package, please let the receptionist know at checkout.

Please be a responsible pet owner and have your puppy spayed or neutered by 7 months of age.
